# 5 Commitments of Bicho-katsu Aojiru 美腸活 青汁

POINT

02

The balance and quality of two types of dietary **fiber** are important

We use PHGG, a gentle, water-soluble fiber from guar beans, known for its high fermentability and health benefits.

POINT

04

Live **Enzymes**

Our body's enzymes decrease with age. To support digestion and overall health, Bicho-katsu Aojiru uses raw, non-heated enzymes that stay active and effective.

POINT

01

We don't include anything that disrupts the **intestinal environment**.

Bicho-katsu Aojiru is made with safe, pesticide-free, domestically sourced ingredients —no additives, and key plants like barley leaves, mulberry, and moringa are all Japan-grown.

POINT

03

Create a gut environment where **good bacteria dominate**

A healthy gut has more good than bad bacteria. This product helps maintain that balance with oligosaccharides that nourish good bacteria.

POINT

05

**Caffeine-Free and Easy to Drink**

This caffeine-free Aojiru supports gut health and is safe for pregnant women and those sensitive to caffeine.

Profile **Gut Health Expert**

At 39, I was diagnosed with thyroid cancer, which made me realize that gut health is the foundation of wellness.

I became a certified instructor at the Japan Gut Health Association to help others care for their gut through enjoyable, healthy eating.

About the Product

Many people want to eat well but are too busy. This Aojiru was made for them—designed with only one focus: what's truly good for the gut, based on real voices and daily struggles.

**Green Juice Expert**

I've spent 25 years making Aojiru, driven by the challenge of turning something known for tasting "awful" into a product people love.

Through years of learning from farmers in Kyushu and refining the recipe, I've poured passion and effort into every step.

Now, with Ms. Sumoto, we've created an Aojiru full of care and dedication. I hope you enjoy every drop.
